Description

Do you lack kayaking experience, don't feel like jumping on the trees, or pushing yourselves under them or simply leaving the kayak? Do you crave for a moment of relaxation in a kayak? You have no problem with liquor consumption with the music in the background in a climatic place too? Then Wda is for you.

This route cannot be defined as anything else, but the essence of recreational kayaking. This is where you can make your "first steps" in canoeing taking the full advantage of the charms offered by the river - immaculate and very fairytale-like landscape will fascinate every canoeist, and if someone is lacking entertainment. it is also worth trying two lakes situated on the route. In the end, after the "hard work and obstacles" on the route there is a reward. You can satisfy your hunger and thirst in the climatic place with the accompaniment of music.
