

Single kayaks

Our equipment does not tolerate compromises – on our offer you will find not only polyester kayaks and canoes but also very safe and comfortable equipment making use of the latest polyethylene technology. We focused on the quality of our equipment and the safety of our customers !! The customer has to trust us and feel safe while canoeing – that is most crucial from our perspective. Our equipment comes from the best companies in the kayaking industry, we do not provide the so-called “garage makes”. Check out our equipment and compare with others !! We are not afraid of comparisons, we respect our competitors !!

PRIJON CRUISER 430

Prijon Cruiser received the award for the best product in the category of water sports at the Fifth International Fair titled "Increase of Adrenaline". It is a stable, secure, well holding the direction kayak, which is an ideal choice for lowland leisure and tourism; spacious storage compartment in the stern, capacious bow and mesh board of the cockpit allow us to pack the necessary things for any trip; another advantage is huge cockpit of the Cruiser - both beginners and very large kayakers will appreciate the easiness of getting in and out. Kayaks manufactured by the company Prijon are like Mercedes of kayaks, perfected in every detail.

And below the most important features:

- material: polyethylene, the latest development in the production of kayaks, super strong, not afraid of challenging routes, safe and secure, and most importantly: it does not sink !!
- cockpit: large, you can get in and out of the kayak easily, even for bigger people, size 110 cm x 50 cm
- seat: ergonomic, comfortable, do not make people tired while paddling, high-back seating offering comfort of sitting
- storage compartment at the stern for easy loading of luggage during the trip (dimensions 35 cm by 29 cm), you can load the bow.
- footrests - "saw-tooth"
- the map case on the bow
- possibility of using neoprene or nylon kayak shirt
- special handles at the bow and stern for easy carrying of kayaks

Specifications :

- length: 4,30 m
 - width: 68 cm
 - weight of 23 kg.
 - cockpit: 110 cm x 50 cm
 - storage compartment: 35 cm x 29 cm

DAGGER APPROACH 10.0 – HYBRID KAYAK

Single kayak Dagger Approach 10.0 Hybrid is a combination of a mountain kayak and kayak designated for tourism. This kayak is the perfect choice for mountain river, but also excels in kayaking among piled up trees on small, winding rivers and completely stagnant water. Its features include an inserted sword fin, so called skeg. Thanks to that kayaking in calm water we go straight without putting so much effort as in a case of a classic mountain kayak. It is the perfect choice for those who want to try their chances at Słupia, Łupawa, Kamienica, Łeba or Jar Raduni. If you do not want to feel limited on the water during the evolution select Dagger Approach. In this kayak you can conquer wild water or just paddle on calm waters. Its size, large cockpit and capacity offer huge displacement on difficult rivers. It is hard to find a place for luggage in mountain kayaks - in this kayak you will find enclosed storage place in the stern! Thanks to this, we can go for a few day long kayaking adventure.

And below the most important features:

- material: polyethylene, the latest development in the production of kayaks, super strong, not afraid of challenging routes, safe and secure, and most importantly: it does not sink !!
- cockpit: classical for mountain kayaks, size 96 cm x 53 cm
- seat: ergonomic, comfortable, do not make people tired while paddling
- adjustable footrests – you will adjust them to your optimum position
- special handles on the bow and stern for carrying kayaks easily
- the drain plug on the stern
- storage opportunities on the stern and bow
- closed storage place on the stern
- adjustable sword fin called skeg (it can be hidden completely)
- possibility of using neoprene or nylon kayak shirt

Specifications:

- length: 3.05 m
- width: 71 cm
- weight 18 kg.
- cockpit: 96 cm x 53 cm
- closed storage place with a diameter of 25 cm
- adjustable footrest

PRIJON CHOPPER – MOUNTAIN KAYAK

Prijon is the undisputed world leader in the production of kayaks. A large mountain kayak, in case of Poland it serves very well both in lowland tourism and tourism on rivers with piled up trees. Great for beginners and ambitious mountain kayakers - semicircular bottom makes it easy to master the Eskimo style. It is also ideal for

kayaking on small, winding rivers. Easy access to the stern makes it the perfect kayak for the expedition with piled up trees on the way when you need to carry kayaks with the equipment. Kayaks manufactured by the company Prijon are like Mercedes of kayaks, perfected in every detail.
