

# Single kayaks

## Single polyethylene kayaks – freedom, control and safety on Łupawa & Słupia

---

At **eKajaki.pl** we focus on equipment that gives you **full control of the kayak**, real comfort while paddling and a true sense of safety on different types of rivers. That is why our offer includes only **durable polyethylene kayaks**, proven during one-day, weekend, technical and multi-day trips across Pomerania – on the Łupawa, Słupia, Wieprza and quieter waterways of Kashubia.

We currently offer **3 single kayaks**, selected so that everyone can choose the model best suited to the planned route, paddling style, experience level and amount of luggage: **Prijon Cruiser CL 430**, **Smart S** and **Splash 300**. It is a set that lets you pick a kayak for calm touring routes as well as for small, winding, obstacle-rich and more technical river sections.

### Why choose our single kayaks?

---

- made of durable and impact-resistant **HDPE polyethylene**,
- safe, stable and comfortable also for beginner paddlers,
- provide greater independence and full control over the paddling line,
- perform well on lowland rivers as well as winding and obstacle-rich sections,
- allow you to match the kayak to your style: from touring with luggage to dynamic obstacle-rich paddling.

#### 1. Single polyethylene kayak Prijon Cruiser CL 430

---

**Prijon Cruiser CL 430** is a very good choice for paddlers looking for a **comfortable touring kayak** for calmer rivers, lowland sections and longer trips with luggage. This model gives a real sense of safety, tracks well and allows calm, predictable and comfortable paddling even for less experienced kayakers.

Thanks to its length, large cockpit and luggage space, the Cruiser performs very well on **one-day**

**and multi-day kayaking trips.** It is a kayak for people who value **easy entry and exit**, calm handling and the option to take the gear they need on the route.

A big advantage of this model is also its versatility. The Cruiser feels at home in recreational touring, on rivers with a gentler character and wherever comfort, packing capacity and stable paddling matter more than very fast manoeuvring.

It is a great choice for paddlers who want to paddle **at their own pace**, have more space around them and use a single kayak that gives a sense of freedom without losing safety.

## Key advantages of the Prijon Cruiser CL 430:

---

- very good touring kayak for calmer rivers and longer routes,
- stable and safe for beginners and intermediate paddlers,
- tracks well and paddles predictably,
- large cockpit makes entry and exit easier,
- closed rear storage hatch,
- option to carry additional luggage in the bow,
- comfortable seat and fixed „saw-tooth” footrests,
- option to fit a spray deck.

## Technical data:

---

- length: **430 cm**
- width: **68 cm**
- weight: **23 kg**
- cockpit: **110 x 50 cm**
- storage hatch: **35 x 29 cm**
- footrests: **Yes – fixed, saw-tooth type**
- material: **HDPE polyethylene**

## 2. Single polyethylene kayak Smart S

---

**Smart S** is a very interesting single kayak for paddlers looking for a **combination of stability, lightness and comfortable touring**. This model performs well on calmer rivers, recreational sections and routes where ease of handling, seat comfort and freedom during all-day paddling matter most.

It is a safe and beginner-friendly kayak, while at the same time giving a lot of satisfaction to more experienced paddlers. Its strong points are **stability, high buoyancy, length, high freeboard and a spacious cockpit**, which build confidence on the water and make it very good for recreational and touring trips.

The Smart S is a good choice for paddlers who want to go solo in comfort, take basic luggage and use a kayak that is easy to handle. Additional equipment such as a **storage hatch and fixed saw-tooth footrests** increases the practical functionality of this model.

It is a great option for those looking for a single kayak with a modern character, good stability, straightforward handling and comfort on touring routes.

### Key advantages of the Smart S:

---

- stable and safe kayak for beginners and intermediate paddlers,
- light and comfortable for recreational touring,
- high buoyancy and high freeboard improve the sense of safety,
- spacious cockpit increases comfort of use,
- comfortable contoured seat,
- fixed saw-tooth footrests,
- storage hatch,
- tracks easily and manoeuvres well on the water.

### Technical data:

---

- length: **360 cm**
- width: **65 cm**

- freeboard height: **35 cm**
- weight: **26 kg**
- capacity: **170 kg**
- cockpit: **102 x 58 cm**
- footrests: **YES**
- storage hatch: **YES**
- material: **HDPE**

### 3. Single polyethylene kayak Splash 300

**Splash 300** is a kayak for paddlers who like **greater manoeuvrability, quick response and confident handling** on the river. This model performs very well on **small, winding rivers**, obstacle-rich sections and anywhere you need to avoid obstacles efficiently, make quick line corrections and keep full control of the kayak.

Although the design comes from whitewater kayaking, in Polish conditions it has also proven itself very well in **obstacle-rich touring and more technical lowland trips**. It is willingly chosen by active paddlers who are looking for a single kayak that delivers a lot of fun and lets them better „read” and feel the river.

**Splash 300** works well both for experienced kayakers and for those who want to move to a higher level of manoeuvring. Thanks to its compact design, shaped cockpit and adjustable footrests, it allows dynamic paddling while keeping comfort and safety.

It is a very good choice for paddlers looking for a kayak for **more adventurous routes**, small forest rivers, sections with obstacles and trips where compact size and quick reaction on the water really matter.

## Key advantages of the Splash 300:

---

- very good manoeuvrability and ease of handling,
- excellent for small, winding rivers and obstacle-rich sections,
- a whitewater-style kayak that also works well in obstacle-rich touring,
- adjustable footrests allow a better paddling position,
- option to fit a spray deck,
- drain plug makes emptying water easier,
- easy access to the stern lets you carry small handy gear,
- light and very durable construction.

## Technical data:

---

- length: **300 cm**
- width: **63 cm**
- weight: **22 kg**
- cockpit: **86 x 49 cm**
- footrests: **adjustable**
- material: **HDPE polyethylene**

## Comparison of single kayaks

---

Each of our single kayaks has a different character. Thanks to that you can choose the model that

best matches the type of trip, your experience level, the amount of luggage and your paddling style.
