

# Polyethylene canoes

## Polyethylene canoes – comfort and safety

---

At **eKajaki.pl**, we focus on boats that deliver real comfort on the water, high levels of safety and confident handling during relaxed family paddling trips, leisure outings and longer tours with extra gear. That is why our range includes only **durable polyethylene canoes**, proven on lakes, slow-moving lowland rivers and calmer paddling routes.

We currently offer the **three-person RTM Riviera 464 canoe**, selected to provide maximum stability, comfortable seating and generous carrying space. It is a model that performs extremely well on family outings, relaxed paddling with a child and easy-going trips with kit on board.

### Why choose our canoes?

---

- made from tough and durable **HDPE polyethylene**,
- very stable and safe, even for less experienced paddlers,
- comfortable for family trips, easy-going outings and leisure paddling,
- well suited to lakes, canals and calm lowland rivers,
- offer plenty of room for luggage and a high level of on-the-water comfort.

### 1. Polyethylene canoe RTM Riviera 464

---

**The RTM Riviera 464** is an excellent choice for paddlers who value **stability, comfort and safety on the water**. This model performs very well on **relaxed family trips, leisure outings and paddling with extra luggage**, where predictable handling, ease of use and comfort for the whole crew matter most.

It is an ideal canoe for **family paddling and leisure trips**, where comfortable seating, generous internal space and stable behaviour on the water are the top priorities. It also works very well on **day trips and weekend outings**, when you want easy access to your kit and a calm, touring-style paddling experience.

The **RTM Riviera 464** is also a great option for paddlers who want to head out **with 2–3 people**, including a child. In that setup, you gain **plenty of carrying space**, more room around you and **very high stability**, which translates into a greater sense of security and comfort throughout the trip.

Thanks to its open design, the Riviera 464 offers comfortable benches, a wide hull and stable behaviour on the water. It is a great choice for anyone who wants to paddle in a calm, comfortable and stress-free way, while still enjoying easy packing and straightforward access to their gear during the trip.

## Key advantages of the RTM Riviera 464:

---

- very high stability and a strong feeling of security,
- ideal for family paddling trips and relaxed canoe touring,
- comfortable for 2–3 people,
- plenty of space for luggage and equipment,
- the open design makes packing easier,
- comfortable benches improve seating comfort,
- the wide hull increases stability throughout the trip,
- easy to handle on lakes, canals and calm rivers,
- the durable polyethylene construction stands up well to intensive use.

## Technical specifications:

---

- length: **464 cm**
- width: **90 cm**
- depth: **37 cm**
- weight: **43 kg**
- maximum load capacity: **295 kg**
- material: **HDPE polyethylene**

## Who is the RTM Riviera 464 best suited for?

---

The **RTM Riviera 464** is a model for paddlers looking for **maximum stability, comfort and space**. It is an excellent choice for family trips, relaxed paddling with a child, easy outings on lakes and anywhere that comfort, safety and the freedom to carry more gear matter more than outright sporty performance.

It is also a very good option for people who prefer a more open boat than a classic kayak and want to enjoy a calm, touring-style paddling experience, easier access to their gear and greater seating comfort throughout the whole trip.
